NOTICE: Sections 54.307(b) and 54.802(a) of the Federal Communications Commission's rules requires all competitive eligible telecommunications carriers to provide line count information to USAC, the universal service Administrator, in order to be eligible to receive support. Pursuant to Sections 54.307(c) and 54.802(a), this information must be submitted by support mechanism on a quarterly basis in accordance with the incumbent carrier's line count reporting schedule. This collection of information stems from the Commission's authority under Section 254 of the Communications Act of 1934, as amended, 47 U.S.C. §254. The data in the form will be used to calculate the amount of support, if any, that each reporting carrier is eligible to receive from the High Cost support mechanisms.

We have estimated that each response to this collection of information will take, on average, 5 hours. Our estimate includes the time to read the instructions, look through existing records, gather and maintain the required data, and actually complete and review the form or response. If you have any comments on this estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERF, Washington, D.C. 20554, Paperwork Reduction Project (3060-0986). We also will accept your comments via the Internet if you send them to Judith-B.Herman@fcc.gov. Please DO NOT SEND COMPLETED DATA COLLECTION FORMS TO THIS ADDRESS.

Remember -- You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid Office of Management and Budget (OMB) control number. This collection has been assigned an OMB control number of 3060-0986.

The Commission is authorized under the Communications Act of 1934, as amended, to collect the information we request in this form. We will use the information that you provide to determine High Cost support amounts for competitive eligible telecommunications carriers. If we believe there may be a violation or potential violation of a statute or a Commission regulation, rule, or order, your form may be referred to the Federal, state, or local agency responsible for investigating, prosecuting, enforcing, or implementing the statute, rule, regulation, or order. In certain cases, the information in your form may be disclosed to the Department of Justice, court, or other adjudicative body when (a) the Commission; (b) any employee of the Commission; or (c) the United States government, is a party to a proceeding before the body or has an interest in the proceeding.

If you do not provide the information we request on this form, you are not eligible to receive support under the High Cost support mechanisms, 47.C.F.R. §§ 54.307 and 54.802.

The foregoing Notice is required by the Paperwork Reduction Act of 1995, P.L. No. 104-13, 44 U.S.C. § 3501, et seq.

STATE OF IOWA
DEPARTMENT OF COMMERCE
UTILITIES BOARD

IN RE: ROCKWELL COOPERATIVE TELEPHONE ASSOCIATION	DOCKET NO. 199 IAC 39.2(4)
---	----------------------------

ORDER DESIGNATING ELIGIBLE CARRIER

(Issued November 18, 2005)

On October 4, 2005, Rockwell Cooperative Telephone Association (Rockwell) filed with the Utilities Board (Board) an application for universal service eligible carrier status in Iowa. Rockwell requests the Board designate it as an eligible telecommunications carrier pursuant to 199 IAC 39.2(4).

On August 25, 2003, the Board initiated a rule making, In re: Eligible Telecommunications Carrier Designation for Wireless Carriers, Docket No. RMU-03-13, which was intended to bridge the gap that existed between wireless and wireline companies with respect to the receipt of universal service funding by allowing wireless companies to serve parts of incumbent service areas pursuant to their operating licenses issued by the Federal Communications Commission (FCC). On May 24, 2004, the Board adopted 199 IAC 39.2(5)"c," which grants eligible telecommunications carrier (ETC) status to wireless telecommunications carriers that apply for that status, based on their certification from the FCC.

Board rule 39.2 provides a means by which the Board can designate Iowa telecommunications companies to be eligible to receive funding from the universal

service fund, as defined by the Telecommunications Act of 1996, 47 U.S.C. § 254. Under the Act (and FCC regulations implementing the Act), the Board must determine that a carrier meets the following service requirements before it may be designated an eligible carrier as set forth in subrule 39.2(4):

- 1) Offer the services supported by the federal universal service fund;
- 2) Offer the services using its own facilities or a combination of its own facilities and resale (47 C.F.R. § 54.201(c) provides that "own facilities" includes purchased unbundled network elements);
- 3) Advertise the availability of the supported services; and
- 4) Offer the services throughout the designated service area.

An ETC must also offer a minimum amount of local exchange service, defined in usage minutes, provided with no additional charge to customers. See FCC 98-272, October 26, 1998. See also 199 IAC 39.2(1)"b." The FCC has not yet quantified a minimum amount of local usage required to be included in a universal service offering, but has initiated a separate rule making proceeding to address this issue. Id. Any minimum local usage requirements established by the FCC as a result of that rule making would be applicable to all designated ETCs. The Board understands that Rockwell will comply with any and all minimum local usage requirements adopted by the FCC. The Board also understands that until the FCC establishes a minimum requirement, Rockwell will offer at least one universal service offering with unlimited local calling.

In its request for designation, Rockwell states that it satisfies each of these named requirements. Based upon these unopposed representations and the company's commitment to follow the minimum local usage requirements when adopted by the FCC, the Board finds that Rockwell offers the services supported by the federal universal service fund, using its own facilities or a combination of its own facilities and resale of the facilities of another carrier.

Rockwell states that it is licensed by the FCC to serve the areas of ISA 7 and ISA 132 in Iowa and that it intends to provide universal service fund-supported services throughout its licensed service areas. The Board finds that this assertion by Rockwell satisfies 199 IAC 39.2(5).

Rockwell also states that it will provide to the Board, for informational purposes, a description of the service and rate plan(s) when it commences providing universal service fund offerings to Iowa customers. The Board finds these commitments by Rockwell adequate to assure that public interest concerns will be satisfied.

The Board also notes that pursuant to a federal mandate, Rockwell is required to file a certification regarding its use of universal service funds with the Board. This filing will be made pursuant to 199 IAC 22.2(7), as described in Docket No. RMU-01-14, In re: Certification of Rural and Non-Rural Telecommunications Carriers.

IT IS THEREFORE ORDERED:

1. Eligible telecommunications carrier status is granted to Rockwell Cooperative Telephone Association, as requested in its application filed October 4, 2005, subject to the voluntary commitments described in the body of this order.
2. The designated service area for Rockwell Cooperative Telephone Association shall be the area in Iowa where Rockwell Cooperative Telephone Association is licensed by the Federal Communications Commission to provide service.
3. The Executive Secretary of the Utilities Board shall mail copies of this order to Rockwell Cooperative Telephone Association, the Universal Service Administration Company, the Federal Communications Commission Universal Service Branch, and the Federal Communications Commission Office of the Secretary.
